MS OUTDOOR SAFETY

This 'Backcountry Avalanche Advisory' is provided as a public service by the New Zealand Mountain Safety Council, Inc. It is intended as an advisory only.

Primary Avalanche Danger

 <p>WET SLAB</p>	<p>Dangerous Aspects</p>  <p>2 Highest Danger Rating</p>	<p>Likelihood</p>  <p>Certain Likely Unlikely</p>	<p>Size</p>  <p>Largest Small</p>	<p>Trend</p>  <p>Increasing No change Decreasing</p>	<p>Time of day</p>  <p>10am - 3pm</p>
 <p>High Alpine: Above 2000m Alpine: 1000 to 2000m Low Alpine: Below 1000m</p>					

Description:
Conditions are still getting a good freeze at night but bit of rain in the forecast. So this means conditions will be firm under foot for any early birds on the mountain but should soften during the day. We are expecting things to warm up again with the weather which will start to have an effect on the snow pack. The concern around wet avalanches is rising with this weather we are starting to receive so care is going to be needed. Use care when out and about watch for the early warning signs the snow pack is changing like the pin wheeling and think about what slopes you are traversing in the afternoons.

Current Snowpack Conditions

	<p>A spring time snow pack exists across the mountain at all elevations, so the snow pack is at one temperature zero degrees. This will fluctuate between being wet at loose or frozen solid. Overnight we still getting a ok freeze with the cooler temperatures at night which is helping lock the snow pack back up. This will soften quickly during the day and we will start to be more concerned around the wet avalanches again.</p>
--	---

Recent Avalanche Activity

	<p>No recent activity on the mountain, you will see old signs of past wet avalanches still.</p>
--	---

Mountain Weather

	<p>Warm days cool nights, will see some showers on the mountain may fall as snow before turning to rain as freezing level rises.</p>
 <p>For more information go to: http://www.metService.com/mountain/index</p>	

Sliding Danger

	<p>Things will be firm in the AM take care.</p>
